Gençler toplum için üretiyor.

Who is involved?

NIHAnkara
Hollanda Yüksek Öğretim Enstitüsü
Netherlands Institute for Higher Education
Nederlandse Intituut voor Hoger Onderwijs

TÜRKİYE CUMHURİYETİ
KAPADOKYA MESLEK YÜKSEKOKULU

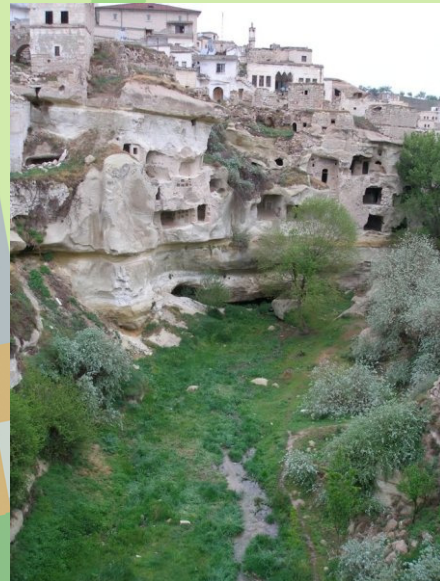

How was the project born?

- NIHA Observation Mission on Water Problems in Cappadocia (Nov 2007) – Film Lunar Landscape
- Workshop on Water Management in Kızılcahamam (Jan 2008) with Turkish/Dutch ministries, academics, companies and NGOs
- Presentation of the project idea in Ürgüp (May 2008)

Why did we do it?

- Lack of wastewater treatment in İbrahimpaşa – although there is a sewage system
- Discharge of the collected wastewater along volcanic rocks into the valley's stream
- Development of odours, insects and health problems especially during summer times

For which goals?

- Solving the wastewater treatment problem in a pilot village in Cappadocia in an environmental and cultural friendly way
- Creating a wastewater treatment model for other villages and municipalities in Cappadocia
- Raising awareness about wastewater management among local communities in the region
- Increasing responsible behavior of local young people

Targeting locals...

- Villagers of İbrahimpaşa
- Students of Mustafapaşa University of Professional Education
- Members of Cappadocia Rotary Club
- Local authorities
- Agricultural and Environmental NGOs

Which are our steps?

November 2008-August 2009	1	2	3	4	5	6	7	8	9	10
1. Kick-Off Meeting										
2. Visibility Tools - Brochures - Posters - Newsletter - Webpage										
3. Preparatory Works - Field visit - Feasibility report - Technical workshop - Final design										
4. Awareness Raising - Training of local volunteer students for plantation and monitoring - Presentation of the to-be-conducted works to local villagers										
5. Construction Works										
6. Official Opening										

Kick-Off Meeting

Cappadocia, Ürgüp, Perissia Hotel*****

October 24th 2008
