

# Krell Playback System 28c

## KPS CAST CD Player

- Featuring Krell CAST circuitry for unparalleled sound reproduction and the most accurate signal transfer between analog components
- Four high resolution 24-bit DACs in a balanced configuration supplying Class A, direct coupled Krell Current Mode output circuitry for the widest dynamic range, most accurate conversion, and lowest noise
- A rigid disc clamping laser mechanism for the superior retrieval of digital information
- HDCD<sup>1</sup> decoding via a Pacific Microsonics PMD 100 decoder/digital filter

### Connections

CAST, balanced, and single-ended outputs for universal system compatibility

### Remote Control

Remote control, RC-5, and 12VDC (12 volt trigger) output for advanced system control flexibility

### Dimensions / Weight

18.5w x 4.5h x 14.5d in. / 17.8 lb  
47w x 11.5h x 37d cm / 8 kg

## KRELLCAST

CAST, Current Audio Signal Transmission, is a Krell proprietary technology for connecting analog components that provides the most accurate signal transfer from one component to the next. It utilizes the sonic purity of current amplification and eliminates signal degradation caused by cable interaction while transmitting signals in voltage.
