

KID

KRELL INTERFACE DOCK

KRELL
THE LEADER IN AUDIO ENGINEERING

**The first iPod-device docking solution
for audio enthusiasts.**

The Krell KID is available
in luxurious silver.

KID

KRELL INTERFACE DOCK

DESIGN

Dan D'Agostino, C.E.O. and Chief Designer of Krell Industries, Inc., and a long-standing fan of iPod devices, often wondered what it would be like to design an interface dock built to Krell standards; specifically targeted toward the owners of hi-end audio systems and music enthusiasts alike. The result is the Krell KID, or Krell Interface Dock.

The KID is the first product of its kind to utilize the fully differential output of the internal DAC for iPod-devices—unaltered or modified—to deliver maximum sonic performance from this portable media.

A custom self-locating top-loading cradle holds the iPod-device. The balanced differential signal from the internal DAC is opto-isolated between the device and

the ultra-low noise 255-step custom-taper volume control, ensuring the lowest possible noise or interference. Digitally-controlled analog bass and treble controls allow custom equalization of the source material. A 1/8" stereo connector located on the front panel of the KID is also direct wired to the volume control, for connecting additional audio sources.

Balanced differential Class A circuitry is maintained throughout the signal path and fed to the balanced and single-ended outputs. Composite and S-video outputs are offered as a video pass through for stored video programming. The KID can be operated via RS-232 protocol and with the included full function remote control.

FEATURES

- **Opto-isolated Connections**
 - **Balanced Differential Class A Circuitry**
 - **255-step Custom-taper Volume Control**
 - **1/8" Stereo Input**
 - **Custom Self-locating Top Loading Cradle**
 - **Digitally-controlled Analog Bass and Treble Controls**
 - **Balanced and Single-ended Outputs**
 - **Composite and S-video Outputs**
 - **RS-232 Control**
 - **Remote Control**
 - **13.0 W, 2.8 H, 10.9 D, in.
33.0 W, 7.0 H, 27.7 D, cm**
