

The Windmillcats

Please donate or adopt us to get food and medical help, thank you very much !!!!

The Windmillcats of Kinderdijk

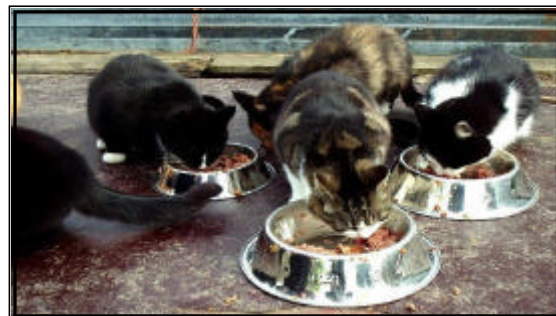

Catshelter "De Kattenmand" is asking for your help in the "Windmillcats" / "Molenkatten" project at Kinderdijk; together with the Dutch SPCA / Dierenbescherming and of course some tenacious volunteers we are giving assistance to the feral cats in the worldfamous windmill area.

To continue the feeding and care of the animals, we are in need of donations or better, adoptions of one or more Windmillcats.

The rising cost of catfood and medical assistance endangers the project at Kinderdijk.

We therefore ask you to do a donation for the cats or adopt one of the Windmillcats for Eur. 50,- per year.

Do you know of friends, who are possibly interested in our Windmillcats, please tell them of their existence. The cats are also helped by a wide coverage among friends or in the media at home to get them some kind of normal life, especially during hard times like winter, when temperatures are below zero. Visit the catshelters website to know more about the cats, follow the link of the English version of the Molenkatten page.

Please contact the "De Kattenmand" for a donation or adoption to get your "Windmillcat Certificate" !!!!!
