

SP60 high power dish antenna

Designed for long distance WiFi applications

Strong pole mounting material included

High quality dish antenna

Attractive housing type

Diameter 61 cm

Light weight

28dBi Antenna gain

High front to back ratio

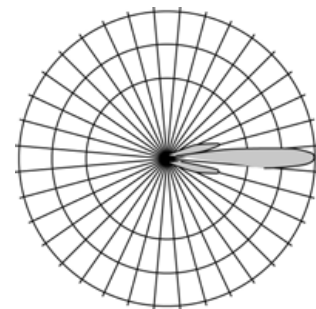

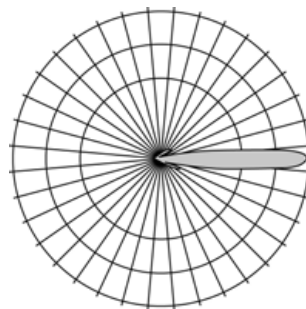

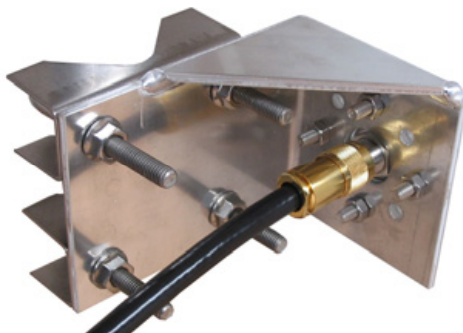

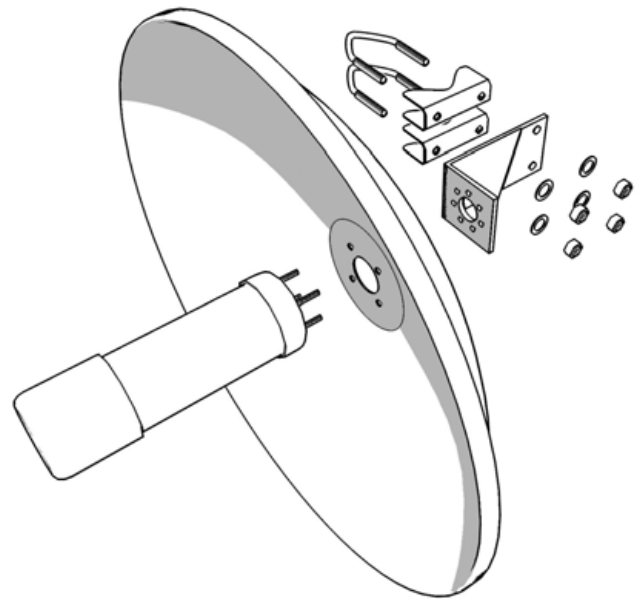

Type N Female connector

Vertical or horizontal polarization

White colour blends with background sky

Specifications

Type	Solid parabola dish
Polarization	Linear, mounting in steps of 45 degrees
Frequency	5470-5875 MHz
Impedance	50 OHM
VSWR	<1.7:1
Gain	28 dBi
Connector	N-female
Power handling	20 Watt
Diameter	610 mm
Dept	250 mm incl. mounting bracket
Weight	2.5 Kg incl. Mounting bracket
Material	Aluminium with stainless steel
Colour	White
Mounts	Mounting hardware fits 35-50 mm mast tubes

High quality stainless steel materials used for the pole mounting.
