

N-male N-male cable low loss 1,5 meter

Designed for WiFi 802.11 Applications

Light weight aluminium core

Designed for outdoor use

High durability

150 cm in length

Very low loss cable

Teflon isolators for low loss

Standard cable suitable for almost any WiFi application

Specifications

Impedance	50 Ω
Frequency Range	0 – 6 GHz
Dielectric	Closed cell PE
Shielding	Foil and copper braid
Insertion Loss 5,5 GHZ	1 dB
Insertion Loss 2,5 GHZ	0,5 dB

Mechanical

Connector type	N-type male
Cable length	150 cm
Cable outer diameter	10,3 mm
Cable weight	0,25 Kg

Type N-male connector makes the cable usable for a wide range of applications.
