

# VRJ-45 Complete Outdoor UTP connector set

Designed for any outdoor or indoor solution

High quality RJ45 connector and socket

Black colour for easy camouflaging

Uv proof materials used

Very durable parts

IP66, IP67 graded waterproof

Gold plated for low resistance connection

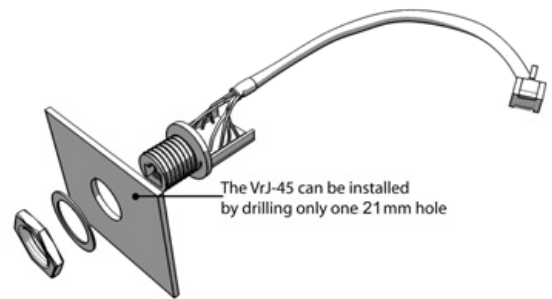

Single hole chassis part for easy assembly

Multiple rubber gaskets for a watertight connection

Standard RJ45 connector can be used in cable part

## Specifications

Contact material	Copper alloy with Gold Plate
Contact resistance	20 mOhm Max
Body material	Polycarbonate
Durability	250 cycles
Dielectric withstanding voltage	500 VAC
Insulation resistance	500 MOhm@ DC 500V
Waterproof	IP66, IP67

The VRJ45 is a complete set for an outdoor RJ45 connection

Assembled RJ45 cable connector on cable
